This factsheet presents the percentage of each indicator (e.g. percent of total births to teens) who are Asian-Pacific Islanders, American Indians, and whites and blacks where Hispanic origin is unknown.

*For a complete definition and a list of sources for each of the nine indicators, please see *Definitions, Data Sources, and Reporting Issues*.

**Number of births by race-ethnicity excludes New Hampshire and Oklahoma. See *Definitions, Data Sources, and Reporting Issues* for more details.

***Number of births by race-ethnicity data excludes New Hampshire. See *Definitions, Data Sources, and Reporting Issues* for more details.

****The Other category consists of Asian-Pacific Islanders, American Indians, and whites and blacks where Hispanic origin is unknown.

*****For several states, beginning in 2003, multiple race was reported and was imputed to one of the four minimum races: White, Black, American Indian or Alaskan Native, and Asian or Pacific Islander. See *Definitions, Data Sources, and Reporting Issues*.
